February 2011

Dear East Lake Woodlands Resident

Pinellas County is currently following water restrictions as specified by the Southwest Florida Water Management District's Year-Round Conservation Measures and Pinellas County Code Chapter 82. Due to drought conditions, the District declared a Modified Phase I "Moderate Water Shortage" for all ground and surface waters within the District effective December 1, 2010.

In your area, the number of authorized watering days and the authorized watering hours depend upon the irrigation source:

- For irrigation using potable drinking water supplied by Pinellas County Utilities, restrictions limit lawn watering to two days per week during authorized hours. If you are using a potable source, apply the enclosed "Pinellas County Utilities Current Water Restrictions" schedule to check your watering days and times. This schedule is mandated by 40D-22 Florida Administrative Code.
- Irrigation from a source supplied by ELW Water, LLC is authorized for one day per week. If you are a customer of ELW Water, LLC, apply the enclosed "ELW Water, LLC 2010 Watering Schedule – Residential" to verify your watering day and times. This schedule is mandated by a Variance granted by the Southwest Florida Water Management District.

Pinellas County is required to enforce the water restrictions set forth by the Southwest Florida Water Management District. Pinellas County Utilities' staff routinely patrols and when they witness irrigation, they perform a chemical test to verify the source of the irrigation water. If there is noncompliance, they prepare a Notice of Ordinance Violation which may result in a citation that carries a fine.

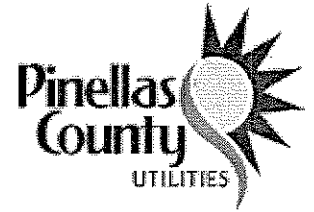

I hope this information will help you to determine your schedule and avoid any unauthorized irrigation. Your cooperation is greatly appreciated and will help Pinellas County to preserve our precious water supply. If you have any questions, please call our office at (727) 464-4000.

Respectfully,

PINELLAS COUNTY UTILITIES
